---

With thanks to John Triffitt, Steve Stephens and the guys at Jam 96, the new club video is ready for the world, and to show people what a friendly and happening club we have here in Falmouth. The team at Jam96 used all sorts of interesting techniques like green-screen and time lapse, but they really specialise in using video to tell stories, and make a better connection with your users or potential customers.

Club members may feel free to use this Video on their web sites, by linking to this page or the YouTube version.
