

Refreshed Branding for FBC

Written by Andy Coote

Wednesday, 02 September 2015 13:56

If you are reading this, you will already have seen our refreshed branding and colour scheme.

The logo and style (which will be carried in our business cards and roller banners) were created for us by Dom at Quayside Design and Print - <http://www.quaysidedesignandprint.co.uk/team.php>

The website and email refreshes were done by Luke Best at Channel Digital who created the original site for us over 5 years ago. <http://www.channeldigital.co.uk/>

We know both companies through our networking activities. Pete Graves of Channel was one of our founding team and Karen Schofield of Quayside is still part of the team that manages FBC activities. Over the 5 years we have worked with many of the businesses who network with us, both as FBC and in our own companies. We remain committed to networking (especially of the relaxed, fun kind) as a way of meeting the right people and working with them.

Andy Coote for FBC
